Everyone has a story to tell, special moments to celebrate and much loved treasures to share. But where do you start?

Perfect Recall is dedicated to helping you share your past with the future. We are here to help you capture your family history, publish or fine tune your family stories, display your precious photos, create a family recipe book, celebrate a special moment, sort through family memorabilia or transition from your family home. We serve the Greater Toronto area on site, and virtually – everywhere!

SHARE YOUR UNIQUE FAMILY HISTORY
Let your story echo through the generations. What do you think your descendants will want to know about you? Names and vital statistics fill out a family tree, but there is so much more to your personal story.

Perfect Recall can help you share your past with the future. We will:
- teach you how to start your own family history project
- work with you to create and share your stories
- organize, annotate, and display your photographs

CELEBRATE SPECIAL MOMENTS
Some life events just deserve a celebration! Let Perfect Recall create a personalized handout for you to share with your guests. Whether it’s details about a specific day, a light hearted timeline, or a memorial or milestone website, we can help you share your past with your family and friends.

TRANSITION FROM YOUR FAMILY HOME
The task of dismantling a family home can be daunting. It is not for the faint-hearted…or those with time at a premium. It is a multi-step organizational challenge that may be hampered by emotional roadblocks. Decisions about how to handle those much loved family treasures can be overwhelming. Perfect Recall will work with you to sort through your memories and memorabilia. We will help you make much needed decisions with diplomacy and tact. And, we’ll make sure that when we’re done everything has a home.
